

### 1. Installing Blogger Template:

If you have existing blogger template

<https://www.youtube.com/watch?v=6EgpQFCPg4>

If you have existing non-blogger template:

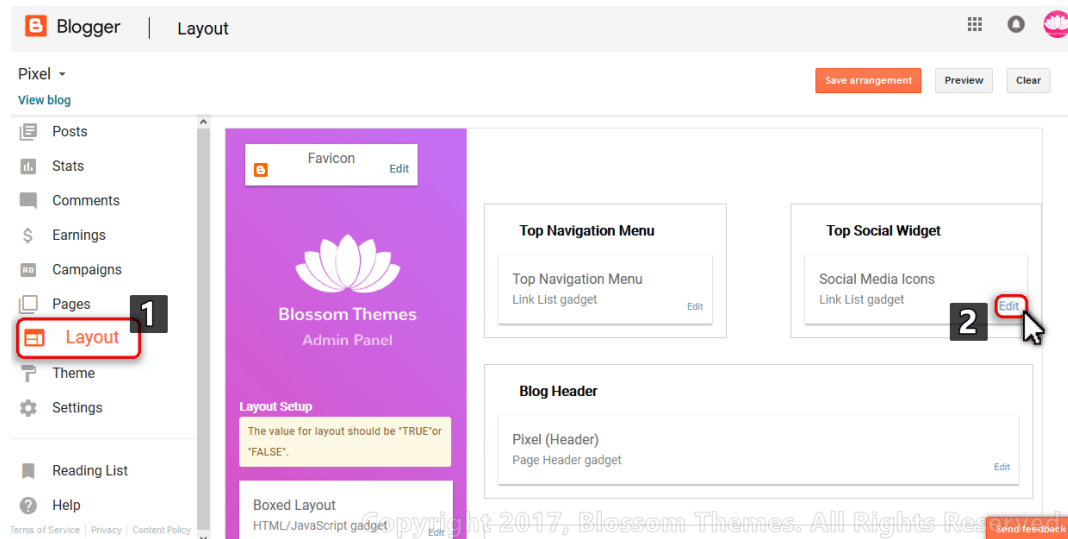

<https://www.youtube.com/watch?v=2urkWyCLhg4>

### 2. Setting up navigation menu

[https://www.youtube.com/watch?v=d-\\_esoJGGiE](https://www.youtube.com/watch?v=d-_esoJGGiE)

### 3. Setting up social icon widget

4. Login to your blogger account and go to “Layout” tab.
5. In the layout tab, look for the “Top Social widget” and click on the “Edit”.

6. In the input for “New site name” type the name of social media.  
[facebook, twitter, gplus, youtube, pinterest, instagram, codepen, linkedin, skype, dropbox, wordpress, vimeo, slideshare, vk, tumblr, yahoo, stumbleupon, reddit, quora, yelp, weibo, phunt, hackernews, soundcloud, whatsapp, wechat, vine, slack, dribbble, flickr, foursquare, behance, rss, stack-overflow, digg, delicious]
7. In the input for “New site url” type the location of your social media profile.
8. Now click on the “Add link button” as shown in the image and click on save widget.

## Configure Link List

The screenshot shows the 'Configure Link List' form. It includes fields for Title (Social Media Icons), Number of items to show in list (empty), Sorting (Don't Sort), New Site Name (instagram), and New Site URL (http://instagram.com). Below these fields is an 'Add Link' button. At the bottom, there is a list of links: pinterest, youtube, gplus, twitter, and facebook. Each link has an 'Edit Delete' button next to it. A 'Save' button and a 'Cancel' button are at the bottom right. Numbered callouts 3, 4, and 5 point to the 'Don't Sort' dropdown, the 'http://instagram.com' text, and the 'Add Link' button respectively.

Title: Social Media Icons

Number of items to show in list:  Leave blank to show all links

Sorting: Don't Sort

New Site Name: instagram

New Site URL: http://instagram.com

Add Link

Edit Delete pinterest

Edit Delete youtube

Edit Delete gplus

Edit Delete twitter

Edit Delete facebook

Save Cancel

## 4. Setting up customized widgets

### Setting Customized Widget

1. Your theme comes with the 2 customized widget, to setup them go to the “Layout” tab.
2. In the layout area look for the “customizing widget” section and add the “HTML/JavaScript” widget.
3. As per your layout decision add the respective code in the content area of the “HTML” widget.

#### Widget Type

#### Code

#### Slider Widget

```
<object class='magplus-widget' data-label='LABEL NAME' data-type='list'></object>
```

#### Tiled Gallery widget

```
<object class='magplus-widget' data-label='LABEL NAME' data-type='gallery'></object>
```

4. Change the text in red with your label and click on save widget.

## 5. Setting up slider widget

1. Login to your blogger account and go to “Layout” tab.
2. In the layout tab, look for the widget “Featured” and click on “Edit”.
3. In the content area place

```
<span data-type="magplusfeatured" data-slides="Number of slides" data-label="LABEL NAME"></span>
```

.

4. Now click on save and save the arrangements.

## 6. Setting up sidebar widgets

1. SEO MAG Themes come with the different sidebar widget options. To setup them go to the “Layout” tab.
2. In the layout tab look for the sidebar/tabs section and add the “HTML/JavaScript” widget.
3. As per your requirement add the respective code shown in the table below.

Widget Type	Code
-------------	------

<div>RECENT</div> <div>  <div> <div>Architectures are the ones crafting tommarow</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Everyone wants to achieve sky</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>perfect view makes everyday beautiful</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Modelling is the new way</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Theres magic in everyday</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div>	<div>&lt;span class="magplus-recent" data-no="5"&gt;&lt;/span&gt;</div>
<div>Travel everywhere!</div> <div>  <div> <div>Everyone wants to achieve sky</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Time is best, until you own it</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Mountains are always best, they stand firm and dont change</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Cities arer the dream towards the latest infrastructure</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div> <div>  <div> <div>Flowers and beauty all lies together</div> <div> <a href="#">Blossom Themes</a> <span>Nov 05, 2017</span> </div> </div> </div>	<div>&lt;span class="magplus-tagswid" data-no="5" data-label='LABEL NAME'&gt;&lt;/span&gt;</div>
<div>COMMENTS</div> <div>  <div> <div>Blossom Themes</div> <div>"additional comment"</div> </div> </div> <div>  <div> <div>Blossom Themes</div> <div>"reply comment"</div> </div> </div> <div>  <div> <div>Blossom Themes</div> <div>"comments"</div> </div> </div>	<div>&lt;span class="magplus-cmnt" data-no="5"&gt;&lt;/span&gt;</div>

4. Now click on save. [Note: If you are setting up the label post widget make sure you change the label name as per yours.]

## **7. Comment System**

1. Login to your blogger account and go to “Layout” tab.
2. In the layout tab, look for the widget “Comment System” and click on “Edit”.
3. In the content area place the respective code for the combination of comment system from the following list.

```
[facebook]
[disqus]
[facebook][disqus]
[blogger][facebook]
[facebook][blogger]
[disqus][facebook][blogger]
[blogger][disqus][facebook]
```

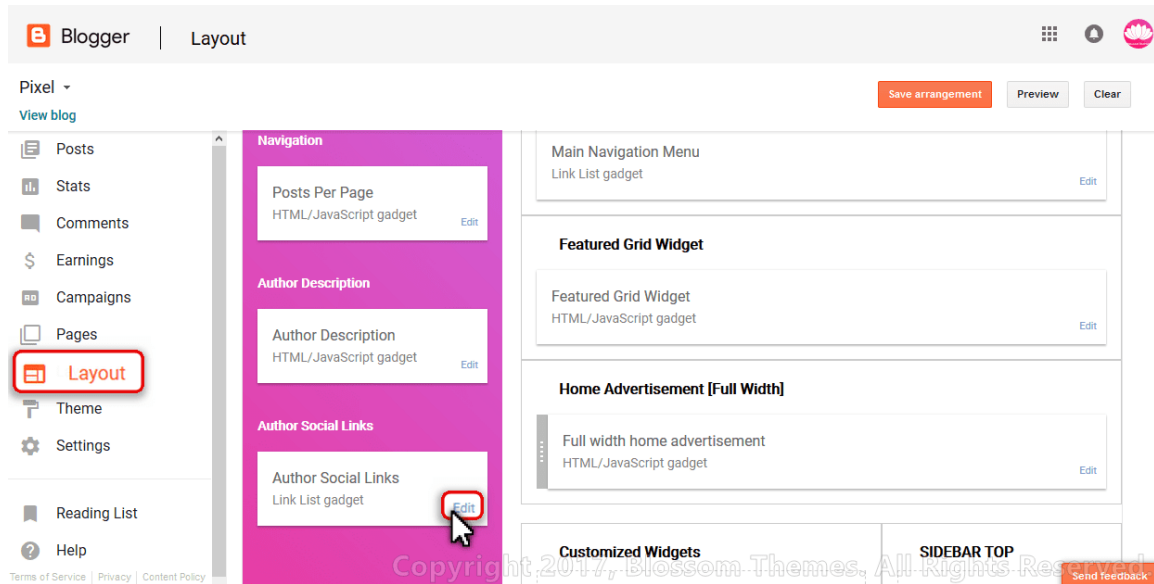

4. Now click on save and save the arrangements.

## **8. Author Description**

1. Login to your blogger account and go to “Layout” tab.
2. In the layout tab, look for the widget in the admin bar, “Author details” and click on “Edit”.
3. In the content area place the description about author which will be shown at bottom of post.
4. Now click on save and save the arrangements.

## **9. Author Social Links**

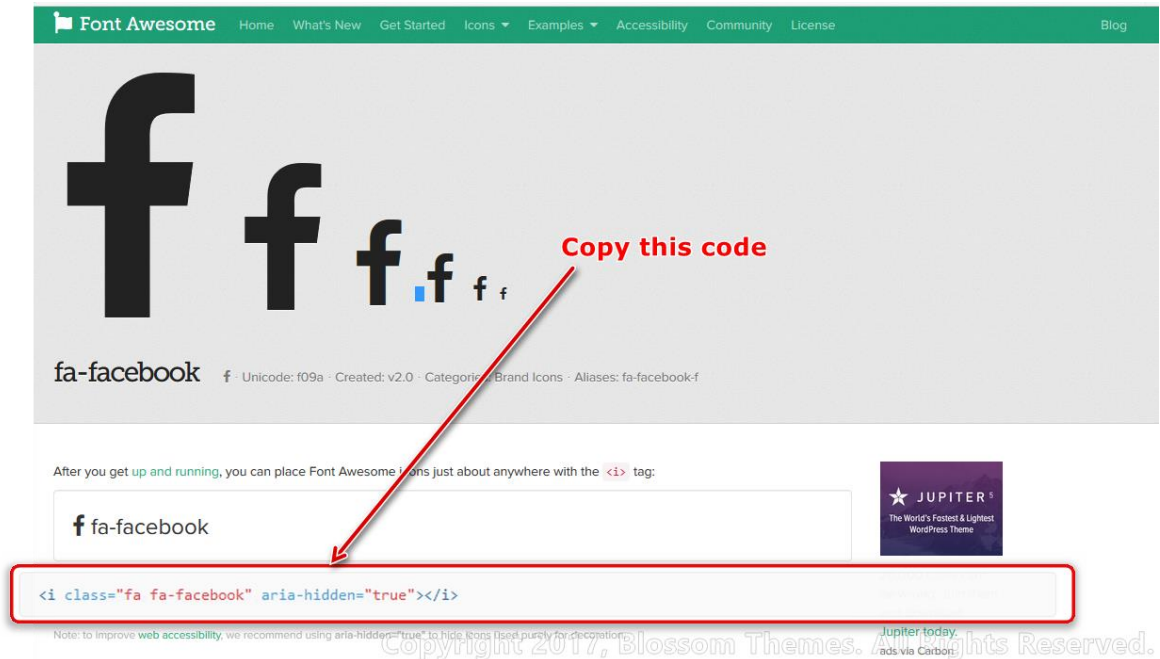

1. Login to your blogger account and go to “Layout” tab.
2. In the layout tab, look for the widget in the admin bar, “Post Author Social Profile” and click on “Edit”.

- Now in another window open the link <http://fontawesome.io/icons/> and search for your social media icon and click on them.

- In the new window copy the code shown in the image below.

5. Now go back to the window open earlier by clicking on edit button. In the input for “New site name” place the code we just copied.
6. In the input for the “New site url” place the location/profile url for the respected icon.

### Configure Link List

Title

Number of items to show in list  Leave blank to show all links

Sorting  **3**

New Site Name  **3**

New Site URL  **4**

**5**

7. Now click on add link button. Once all icons are added click on save.

**10. Posts Per Page**

11. Login to your blogger account and go to “Layout” tab.
12. In the layout tab, look for the widget in the admin bar, “Posts per page” and click on “Edit”.
13. In the content area place the number of posts you want to show on each page.
14. Now click on save and save the arrangements.
